STEP 1. Verify all parts are present. Read instructions before beginning.

STEP 2. Locate and remove tie down loops and tow hook fasteners. Install driver's side bracket between frame and tie down loop and passenger side bracket between frame and tow hook. Replace previously removed fasteners, do not tighten down.

STEP 3. Attach Front Bar to mounting brackets using 1/2" Hex Head Bolts. Level and adjust Front Bar then tighten down all hardware.
Recommended torque values are ó4 Ft. Lbs. for 1/2" fasteners and ó1 Ft. Lbs.
