## Installation Steps

### Installation Diagram:

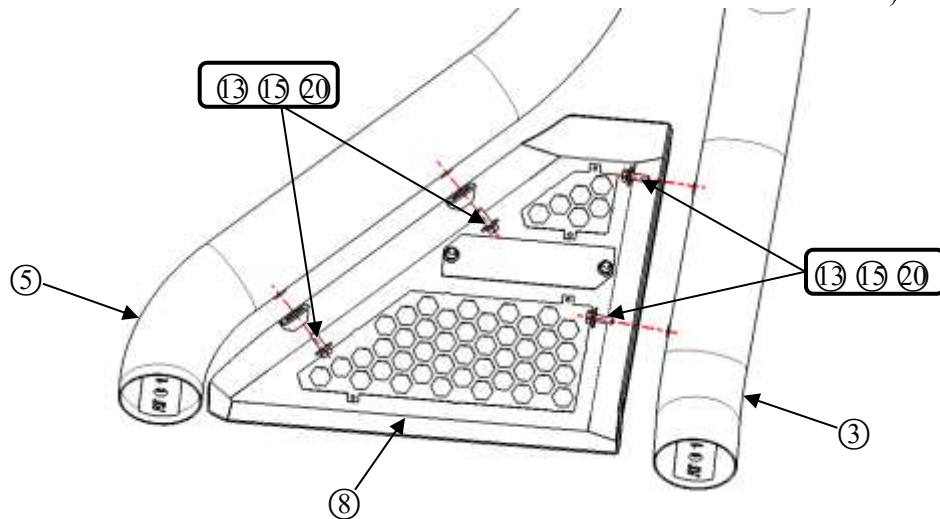

**Step 1:** Verify all parts are present.

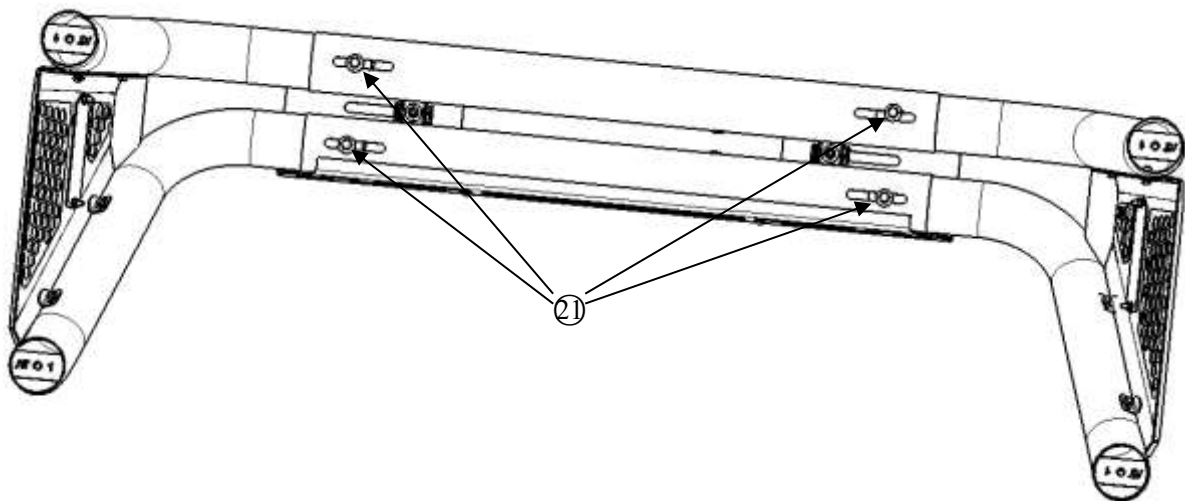

**Step 2:** Put these parts in the corresponding positions according to the above installation diagram, assemble the tubes parts each other and ensure the roll bar can stand up. Install front middle tube ①, rear middle tube ② and middle decoration plate ⑦ with standard parts ⑮ ⑰ and ⑭ ⑯ ⑱. (Do not tighten standard parts to provide sufficient adjustment space for subsequent installation)

**Step 3:** Assemble left decoration plate ⑧ and right decoration plate ⑨ with standard parts ⑬ ⑮ ⑰, the standard parts can be pre-tightened (During installation if you find the place is not enough, can adjust the gap size of the middle tube position in Step 2).

MOUNTING BASE OF CLASSIC PRO ROLL BAR FOR NISSAN FRONTIER 05-20 (COMPATIBLE WITH TONNEAU COVER BASE) TEXTURED BLACK

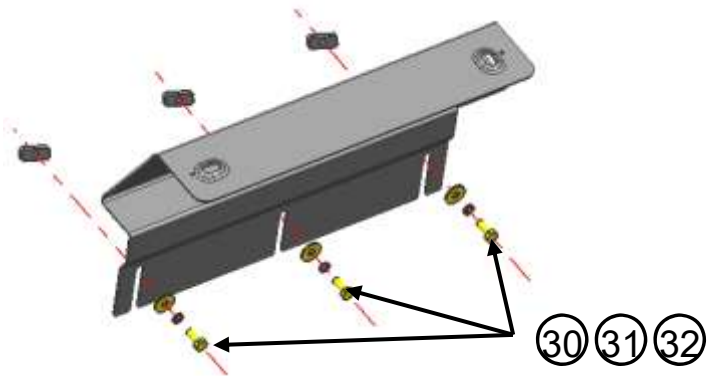

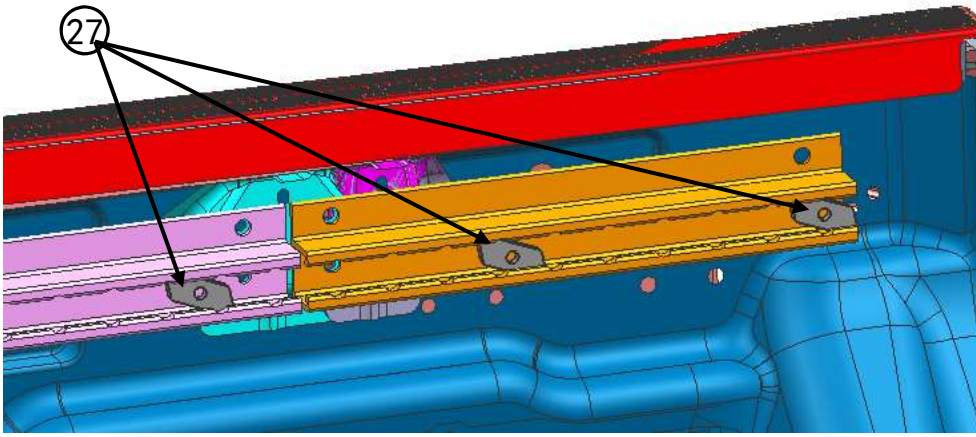

**Step 4:** After the preceding components are preinstalled, connect the side tube and middle tube with standard part (21). (To adjust tubes to appropriate position, lock tighten all accessories except standard part (21) ) PS: These adjustable holes can control the width of roll bar.

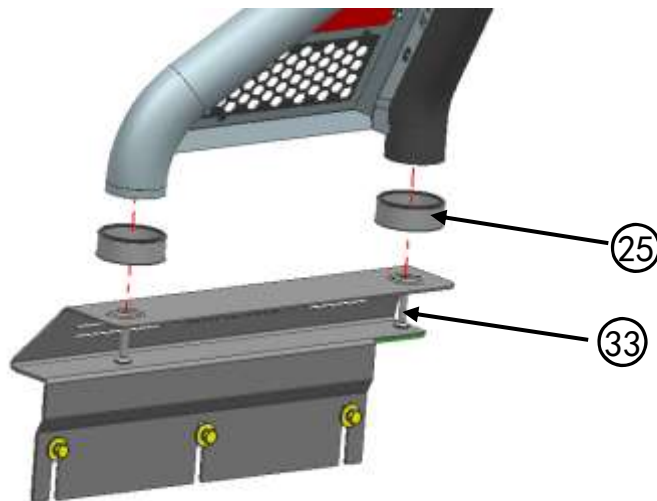

**Step 5:** Slip each 3 pieces plate nut (27) into both sides of utility side trail as the following picture shown, and put mounting base on the truck rail and adjust base to appropriate position, install them with standard parts (30) (31) (32).
