Middle brackets installation figure:

Rear brackets installation figure:

Installation Steps

STEP1: Verify all parts are present.

STEP2: Find the corresponding installation position of brackets in the figure (the picture shows the right side of the car).

STEP3: Fix the brackets with standard parts according to the assembly diagram (standard parts do not need to be locked at this time).

Complete Installation

STEP4: After the running boards are adjusted to the appropriate position, lock all the standard parts. The installation position and manner of the left side brackets are the same as that of the right side.

NOTE

Any damages and losses caused by improper installation and application, goes beyond our quality warranty.
