<p>②⑥</p>	<p>4</p>	 <p>Press cover</p>	<p>②⑦</p>	<p>4</p>	 <p>Circular glue</p>
<p>②⑧</p>	<p>4</p>	 <p>Semi-circular glue</p>	<p>②⑨</p>	<p>8</p>	 <p>Cross slot bolt ST4_15</p>
<p>③⑩</p>	<p>4</p>	 <p>Radar cover</p>			

**Installation Steps**

**INSTALLING PICTURE:**

Step 1: Verify that all parts are present according to the manual.

Step 2: Before installation, use the standard parts and the lamp bracket to install 20-inch Length lamp in the bar.

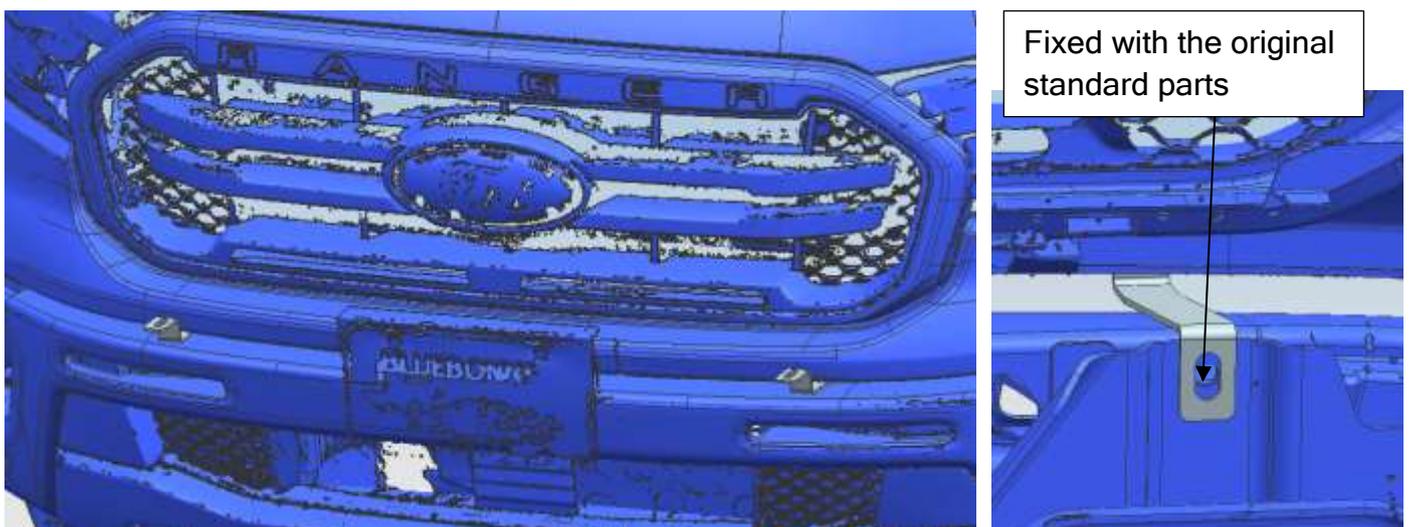

TEXTURE BLACK BEACON FRONT RUNNER 19-20 FORD RANGER (WITH SENSORS RELOCATION)

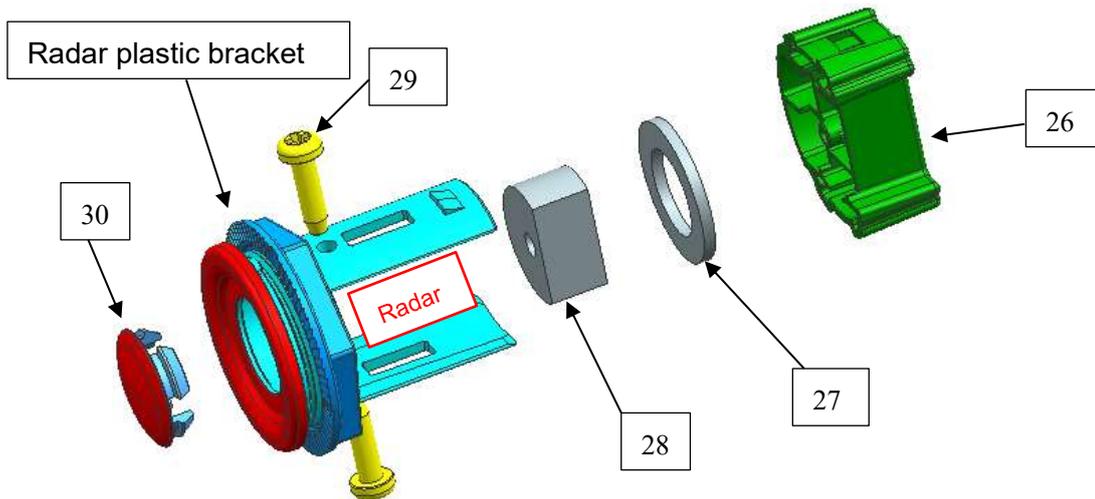

Step 3: Install the bracket L/R on the girder with standard parts. The left and right side installation are consistent.

Step 4: Place the brace brackets through the bottom of the plastic grille guard and then fixed with the original standard parts. The left and right side installation are consistent.

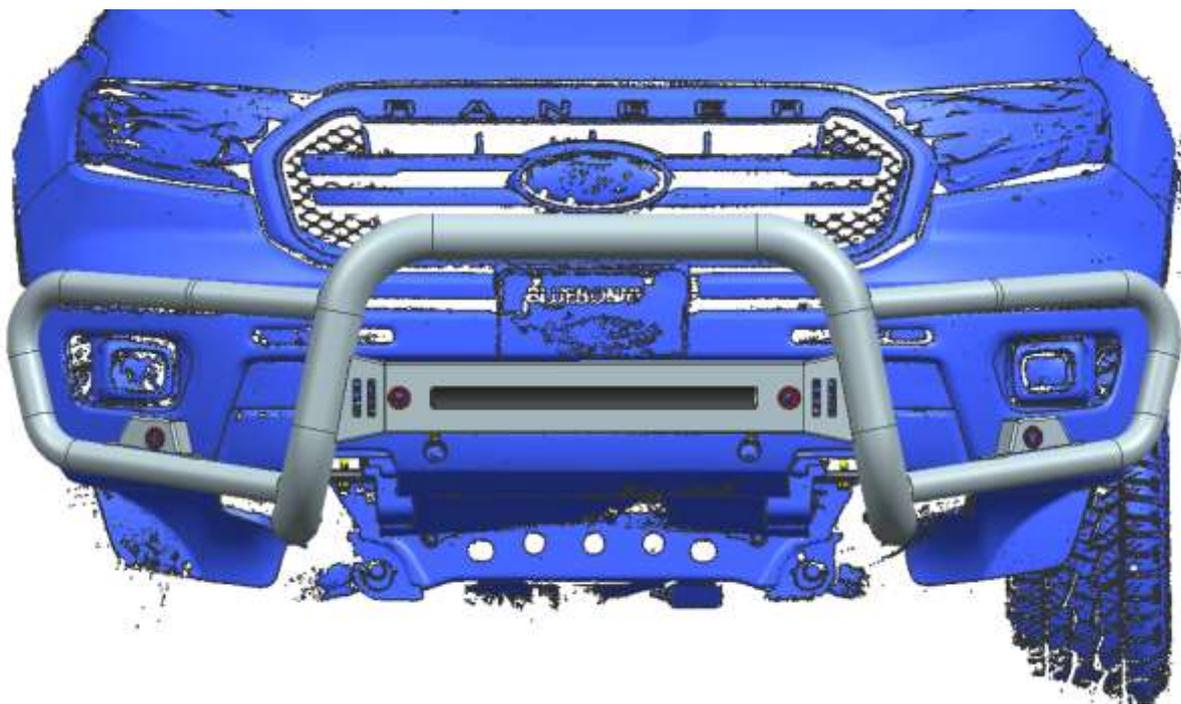

Step 5: Find out the inner radar plastic bracket from the front runner (or from the radar bracket). Then fasten the original radar on the front runner as the below shown. In addition, install the radar brackets on the front runner after the radar brackets are installed with below standard parts.

Step 6: Use standard parts to install the front runner with brackets and Brace brackets as the INSTALLING PICTURE shown.

Step7: Installation is finished, pick up all tools.

**NOTE**

Any damages and losses caused by improper installation and application, goes beyond our quality warranty.
