**Driver Side  
Mounting Bracket**

**Passenger Side  
Mounting Bracket**

**PROCEDURE:**

- 1. REMOVE CONTENTS FROM BOX. VERIFY ALL PARTS ARE PRESENT. READ INSTRUCTIONS CAREFULLY BEFORE STARTING INSTALLATION.**
- Starting on the driver side of the vehicle, locate the slotted hole in the rear frame cross member (**Figure 1**).
- Attach one of the Plastics Retainers half way onto one of the Bolt Plates (**Figure 2**), then insert Bolt Plate into slotted hole (**Figure 3**). Holding the exposed thread at the end of the Bolt Plate, spin the Plastic Retainer all the way to the frame (**Figure 4**). **IMPORTANT!** Do not attempt to insert Bolt Plate without Plastic Retainer into rear frame cross member, doing so Bolt Plate could fall into frame.
- Partially attach driver side Mounting Bracket to already inserted Bolt Plate with the included (1) 12mm Lock Washer, (1) 12mm Flat Washer, and (1) 12mm Hex Nut (**Figure 5**).
- Repeat steps 2 – 4 for passenger side.
- With help position Rear Bumper Guard on the outside of Mounting Brackets. Use the included (4) 10mm x 40mm Hex Head Bolts, (4) 10mm Lock Washers, (4) 10mm Hex Nuts, and (8) 10mm Flat Washers to attach Rear Bumper Guard to Mounting Brackets (**Figure 6**).
- Align Rear Bumper Guard properly; then tighten all hardware at this time.
- Do periodic inspections to the installation to make sure that all hardware is secure and tight.

**To protect your investment**, wax this product after installing. Regular waxing is recommended to add a protective layer over the finish. Do not use any type of polish or wax that may contain abrasives that could damage the finish.

**For stainless steel:** Aluminum polish may be used to polish small scratches and scuffs on the finish. Mild soap may be used also to clean the Rear Bumper Guard.

**For gloss black finishes:** Mild soap may be used to clean the Rear Bumper Guard.
